

BRIAN G. PANKA

PRINCIPAL / ST. LOUIS METRO OFFICE

Brian prepares and prosecutes patent applications in the mechanical and electromechanical fields, both in the U.S. and abroad. He has successfully prosecuted patents involving a wide variety of technical fields, including those relating to farm machinery, power tools, electromagnetic shields and medical devices, to name a few. Brian is also involved in drafting freedom-to-practice, validity and infringement opinions.

In his second decade of practice, Brian works with clients ranging from Fortune 100 corporations, to emerging and middle market companies, to entrepreneurial ventures and start-ups, to individual inventors seeking to own and leverage their novel ideas. Brian takes pride in preparing patent applications that help clients accomplish their commercial objectives. He is dedicated to effectively and strategically prosecuting patent applications where success is contingent upon the protection of unique technologies and new revenue streams. He also strives to draft patent applications that support the likelihood of survival should challenges ensue in the future.
